Gort Metals, Inc. has been designing and installing carports and metal buildings for over 15 years. We are the largest commercial carport manufacturer in the Southwest. With offices in Arizona and Nevada, we can serve you in an efficient and professional manner. Gort Metals takes pride in having the ability to design an efficient "TURNKEY" canopy or building system for any application, at a fraction of the cost of "prefab" manufacturers. All designs meet or exceed current Uniform Building Code requirements, and can be designed to meet specific municipal codes and guidelines. State-certified structural engineer stamps all plans and specifications. Our knowledgeable staff has over 20 years of practical experience in the design and installation of steel canopies and carports. Some options include: Canopy clear heights up to 20', Bay spans of up to 35', Single-column canopies with a depth of up to 60', Custom trim, Custom Paint, and Beautiful Designs.

Gort Metals, Inc. has worked with some of Americas largest businesses including Avis-Rent-A-Car, The Mirage Hotel, Sundt Corporation, Dial Corporation, City of Phoenix, Del Webb, Howard Hughes Corporation, Dollar Rental Car Systems, Inc., and many others. Please contact us for more information on how Gort Metals, Inc., can bring shade to you and your customers.
